RECYCLE 2023

4th International Conference on
Waste Management
18-19th May, 2023

Organized By,
Waste Management Research Group (WMRG)
Department of Civil Engineering and
School of Agro and Rural Technology
Indian Institute of Technology Guwahati
Assam, 781039

RECYCLE

After three successful international conferences, Recycle 2023 is here again to draw the attention of national and international researchers, scientists and academicians to discuss and learn about the latest innovative ideas and technology for waste management. Starting off as a symposium in 2012, a Waste Management Research Group (WMRG) IIT Guwahati initiative, Recycle, gradually rose to an international conference in mere four years.

Recycle 2023 aims to inculcate awareness about safe practices and the latest technologies for managing and treating solid and liquid waste. Also, the added motivation is 'Inclusivity' – to bring together all the researchers, scientists, professionals, industry personnel, and citizens to bridge the gap between research and practice. Recycle 2023 would provide an excellent platform for discussing and sharing ideas, methods, and approaches for effective waste management, emphasising the core issues of water, wastewater, and solid waste management.

ABOUT IIT GUWAHATI

Indian Institute of Technology Guwahati (IITG), established in 1994, is one of the leading institutes of technology and excellence in India. At present, the institute has eleven departments and five interdisciplinary academic centres. IITG has a world-class infrastructure and has state of the art scientific and engineering instruments for carrying out advanced research. IITG's campus is on a sprawling 704.25 acres plot on the north bank of river Brahmaputra, around 20 km from the heart of Guwahati city. Guwahati is connected with many major cities of India by road and air. Institute buses are available from Guwahati city (railway station and airport) to IITG campus.
